

13th September 2017

We recently concluded a very successful mission to the nation of Burma / Myanmar. The mission included three, 3-day seminars in different cities, including the capital city of Nay Pyi Taw. We also conducted four, Sunday church services and one mid week church service.

The Word of the Lord was enthusiastically received with invitations to return to all places in the future. We revealed the revelation that to seek first the kingdom of God is to ensure the Words of the King dominate our mind and imagination. In particular, the honourable and precious promises of God's covenants. We taught that this is achieved through the process of biblical meditation where spiritual seed is received and cultivated in our hearts. The senior pastors had never understood this biblical truth before and were greatly encouraged that they could receive more of the Lord's power to ease their suffering.

In addition to the face-to-face preaching and teaching we distributed 246 copies of my Scriptural meditation book "The Sword of the Spirit" translated into the Burmese language. This book is an invaluable tool to assist meditation as, in addition to teaching how to meditate, it includes 200 of the Scripture's best promises categorized under topic headings for easy access to plant and grow the spiritual seed in our hearts.

We also conducted extensive prayer ministry, anointing many with oil and praying for physical healing and the baptism and outpouring of the Holy Spirit.

It was truly a blessed time. I extend my thanks to those churches, and individuals, from various countries who supported this mission in prayer. The Lord bless you.

With love, Andrew
